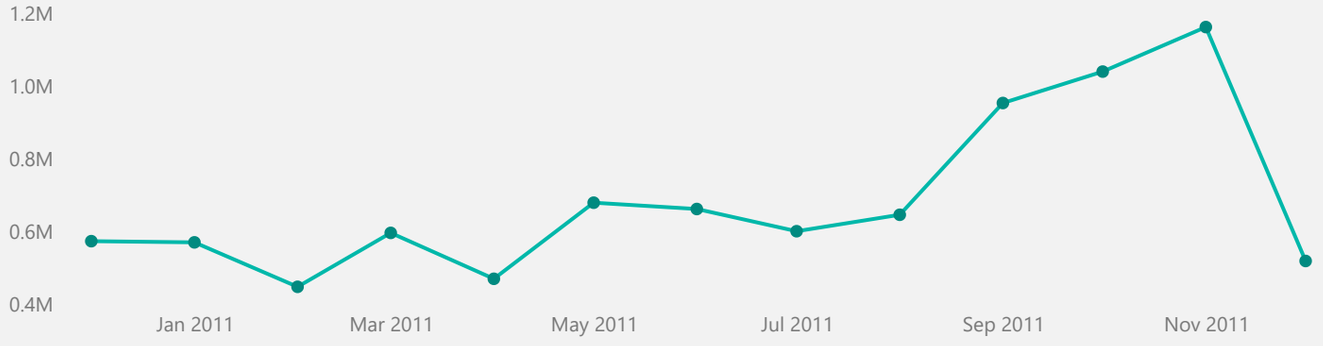
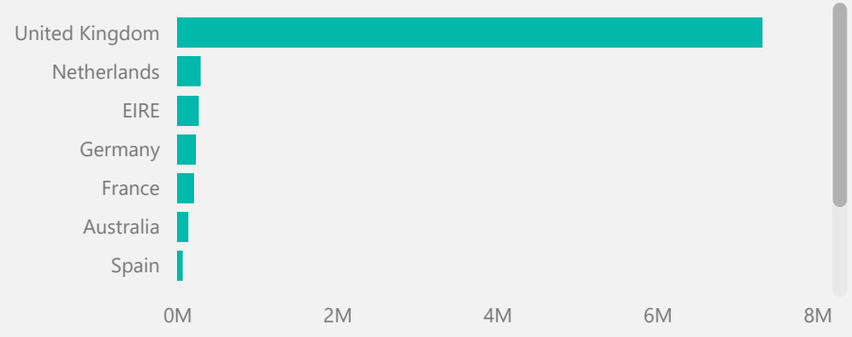
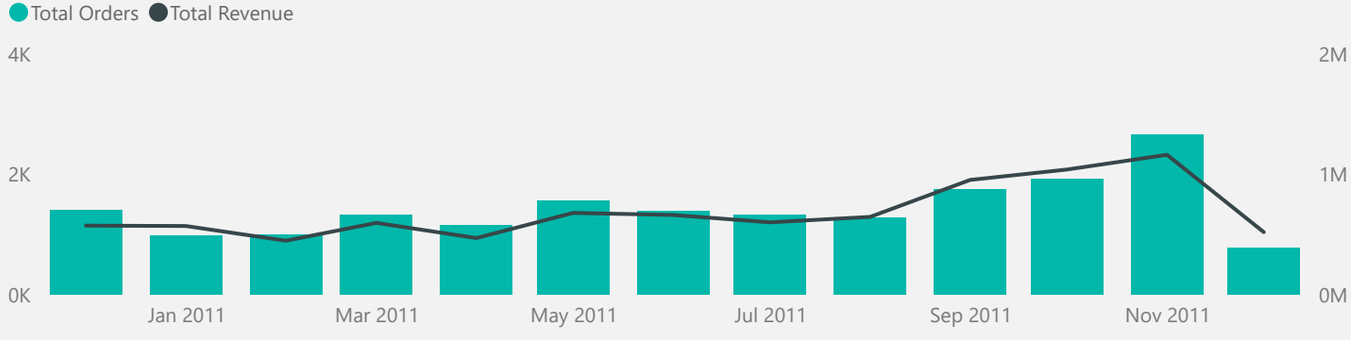
Monthly Revenue Trend



Revenue by country



Orders vs Revenue Trend



Key Insight:

- Revenue steadily increased through Q4, peaking in November
- The spike is likely driven by pre-Christmas wholesale demand
- December decline reflects order completion rather than demand drop

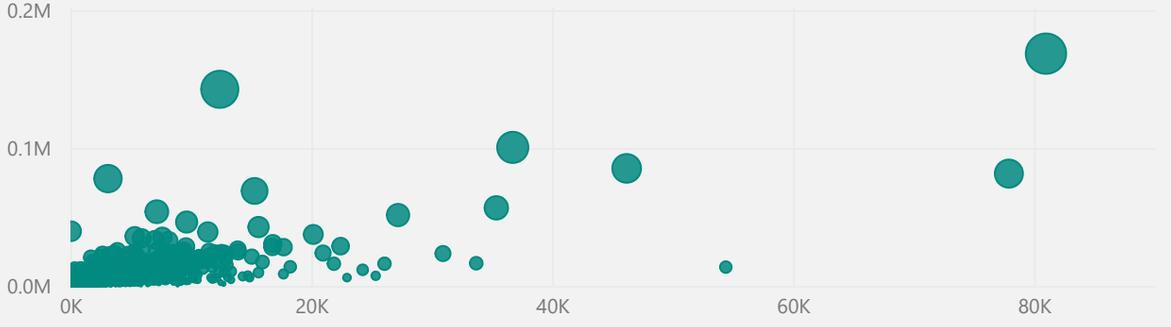
Quantity vs Revenue (Scatter)



Key Insight:

- Revenue is driven by a small group of high-performing products
- Several high-volume items generate moderate revenue due to low price
- Product demand is widely distributed across the catalogue
